

# oCam : 5MP USB 3.0 Camera

## How to use oCam on Odroid C2 with Android

It works on Odroid C2 and Odroid C1.  
However, in Odroid C1, the recored video's color space will be reversed from red to blue.

You can use oCam on Android by bypass the Android camera Framework HAL.  
To do that, you need to use libuvc, and [this project](#) can help you.  
To install the examples, We recommend to use Android Project. but the Eclipse also be supported.  
Please check this [manual](#).
