

Kodi on ODROID-C2: HDMI Passthrough

1. Download the *ODROID-HDMI.conf* alsa configuration file

target

```
$ sudo wget https://git.io/vi7df -O /usr/share/alsa/cards/ODROID-HDMI.conf
```

2. Run Kodi with *AE_SINK=ALSA* on the terminal

target

```
$ AE_SINK=ALSA kodi
```

or Modify Kodi desktop launcher file(*@Jojo's guide*). (*Exec=kodi* → *Exec=bash -c 'AE_SINK=ALSA kodi'*)

- /usr/share/applications/kodi.desktop

```
[Desktop Entry]
Version=1.0
Name=Kodi media center
GenericName=Media center
Comment=Manage and view your media
Exec=bash -c 'AE_SINK=ALSA kodi'
Icon=kodi
Terminal=false
Type=Application
Categories=AudioVideo;Video;Player;TV;

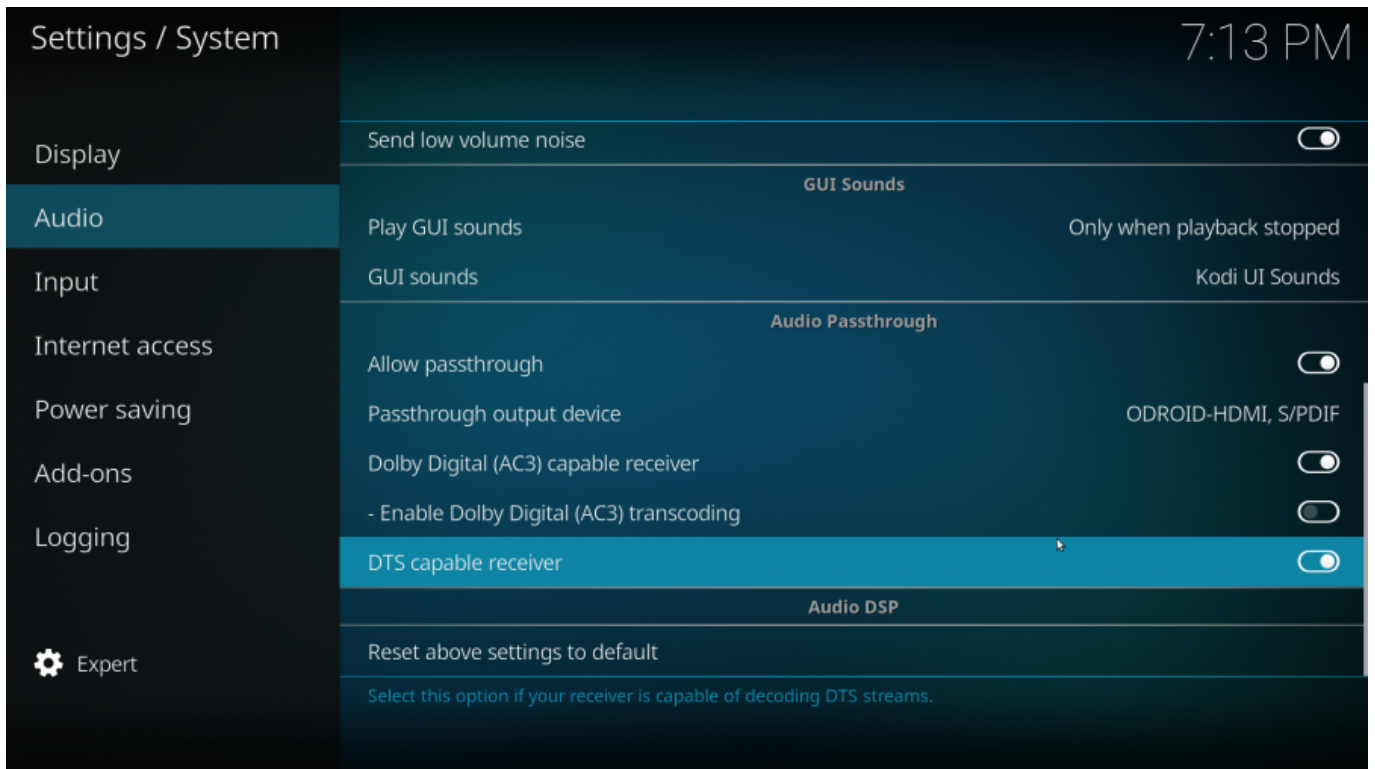

Actions=Fullscreen;Standalone;

[Desktop Action Fullscreen]
Name=Open in fullscreen
Exec=kodi -fs
OnlyShowIn=Unity;

[Desktop Action Standalone]
Name=Open in standalone mode
Exec=kodi --standalone
OnlyShowIn=Unity;
```

3. Enable HDMI passthrough feature in Kodi

- SYSTEM → Settings → System (Settings level >= Advanced) → Audio output
- Check **Enable passthrough**
- Set the *Passthrough output device* to **ODROID-HDMI, S/PDIF**
